City of San Antonio Executive Profile

Building and Equipment Services Director

Jorge A. Perez

Jorge A. Perez oversees the 255-employee Building and Equipment Services (BES) Department, which was created in October 2011 to focus on the efficient management and operation of the City's facilities and its vehicle and equipment fleet.

During his 32 year career, he has directed and managed building and equipment services organizations and has developed programs that enhanced the efficiency and day-to-day operations of facilities and equipment. His experience also includes the effective reorganization and re-engineering of facilities and equipment operations functions, as well as the planning, design, construction, renovations, and maintenance and operations of numerous types of public and commercial buildings.

Mr. Perez began his career as a Facilities Design Engineer with the U.S. Air Force and eventually served as Chief of Operations and Maintenance at Wilford Hall Medical Center, Lackland Air Force Base in San Antonio, Texas, where he was responsible for the day-to-day maintenance and operations of that medical center. As Vice President and General Manager of URS Corporation in San Antonio, TX, he established strategic business alliances and partnerships with Small Business Enterprise firms in the South Texas region and provided engineering and project management consulting services in the areas of air and surface transportation, water resources, drainage, wastewater, environmental, facilities and public infrastructure.
