What is VIA's Adopt-A-Bus Shelter Program?

VIA has over 1,400 shelters throughout Bexar County. Bus shelters vary in style, but are usually placed along high ridership routes to provide VIA riders with a comfortable place to wait for the bus.

VIA encourages local organizations and businesses to participate in the program by adopting a VIA shelter in their area to assist in keeping our community cleaner and safer.

Individuals and families are welcome to participate also.

JUMP ON BOARD

ADOPT A•BUS SHELTER PROGRAM

What are the Benefits of Adopting a Shelter?

The Adopt-A-Bus-Shelter participants contribute to keeping our community and environment cleaner and safer, benefiting everyone in the community.

In appreciation of the organization's participation:

- a plaque recognizing the organization will be placed on the shelter.
- the organization will have an opportunity to receive recognition in VIA's Rider Reader, web site, and other media materials.

What are the Responsibilities of Adopting a Shelter?

Being a participant is an easy process. Upon signing up as a participant, the organization or business will be asked to:

- assist in the removal of debris (at least once per week) between VIA scheduled cleanings.
- report the need for repairs or graffiti removal.
- report the need for security.

How Can Your Organization Sign Up for the Program?

It's as easy as 1-2-3:

1. Call VIA's Public Affairs / Community Relations Office at 362–2370.

2. If you do not have a specific shelter site in mind, a VIA representative will let you know which shelters are available in your area.

3. A VIA representative will mail or fax an agreement form to you.

Upon receipt of your completed agreement form, your organization will be on board VIA's Adopt-A-Bus-Shelter Program!

Why Do We Need Your Help?

VIA maintains all shelters from one to three times a week. Each shelter has a scheduled routine cleaning. In addition to the routine cleanings, VIA makes special maintenance calls and repairs as needed.

The Adopt-A-Bus-Shelter Program helps VIA provide immediate attention to maintenance concerns, graffiti removal, urgent repairs, and security issues.

Sign up today so that your organization or business can do your part in making our community and environment cleaner and safer.
