CITY OF SAN ANTONIO
OFFICE OF HISTORIC PRESERVATION

HISTORIC HOMEOWNER FAIR

Keynote Speaker Brent Hull

There's a new show coming this fall to **History Channel** featuring Brent Hull and his team of craftsmen at Hull Historical! Brent is on a mission to bring back beautiful architecture and the art of timeless building in a world plagued by "McMansions" and commodity construction. Brent and his team are dedicated to preserving history and resurrecting the lost stories of architecture under years of dust and layers of shoddy construction.

They will search for what's original and replicate a quality rarely found in today's culture. Follow Brent and the Hull Historical team as they educate their clients, restore the past, preserve the future while living in a modern world.

The Office of Historic Preservation is excited to welcome Brent as this year's keynote speaker at the Historic Homeowner Fair. Make sure to attend the noon plenary session at the Pearl Stable or catch one of Brent's hands-on demonstrations.
